

# Foal Pellets

Concentrated Nutritional Support For Foals

## Key Features

- 20% protein with milk solids and extra calcium to help support healthy growth.
- Supports foal nutrition when mares' milk is declining in quantity and quality.
- Helps support foals during weaning stress.
- Small pellet format eliminates feed sorting and optimises intake.
- Yea-Sacc® live yeast helps support fibre digestion, nutrient absorption and optimum gut function.
- Bioplex® minerals support mineral utilisation and bone development.
- Sel-Plex® organic selenium helps to maintain additional antioxidant support.
- ProviOX natural plant antioxidants support Vitamin E utilisation.
- Can be introduced from three weeks of age.

## Main Ingredients

Soya bean meal, Oats, Wheat feed, Barley, Soya beans toasted, Wheat, Maize, Molasses, Alfalfa, Sunflower meal, Whey powder, Soya bean oil.

## Instructions For Use

Feed to growing foals from 1 to 8 months of age as a supplement to forage and water. Do not exceed the feeding rates in feeding guidelines table. Over-topped foals may be fed GAIN Opti-Care Balancer or GAIN Stud-Care 32 Balancer as an alternative.
