

# Freedom Cubes

High Oil, High Fibre Cubes, Suitable For Horses Requiring A Low Starch Diet

## Key Features

- High-energy, high-oil, high-fibre alternative pelleted feed for performance horses.
- Can be used to fully or partially directly replace conventional performance feeds.
- Oat-free, low-starch (only 10%) formula supports a natural healthy equine digestion.
- Quality protein sources provide essential amino acids for maintenance of muscle tone.
- Palatable formula helps maintain consistent intakes with increasing training intensity.
- Linseed and soya oils provide a nutritional balance of Omega 3 and Omega 6 fatty acids.
- Natural ingredients help support buffering of stomach acid.
- Yea-Sacc® live yeast helps support fibre digestion, nutrient uptake and the hindgut microbiota.
- Plant-derived FOS prebiotic helps promote natural, stable hindgut fermentation.
- Natural antioxidants including vitamin E help support immunity and muscle function.
- ProviOX natural plant antioxidants support Vitamin E utilisation.
- Sel-Plex® organic selenium provides additional antioxidant support.
- Bioplex® Copper, Zinc and Manganese guarantee maximum mineral availability.
- Contains mycotoxin binders.
